

# pointe dance boutique bun making class

tools needed: ponytail elastic, spray water bottle, hairspray, brush, hairpins, bobby pins, hair net

1. start with a ponytail  
helpful hint: it is much easier to make a bun if hair is wet or tacky with hairspray
2. twist hair  
just tight enough until you feel hair about to twist with the tension
3. feed hair around ponytail  
use hairpins and/or bobby pins close to color of hair and secure
4. wrap hair net around bun  
use hair net close to color of hair. you might have to wrap hair net 2-3 times around bun.  
tuck the extra netting under bun.
5. shape & secure bun  
secure bun using more hairpins and/or bobby pins. smooth and tuck hair, finish with hair spray.
6. have your dancer shake her head to make sure the bun is secure for performing
